

# Carrier DependenSee

## Firewall Rule Report

**Machine:** claudes  
**Addresses:** 172.16.10.3  
**Observation window:** 2026-07-02 17:48 → 2026-07-02 22:43  
**Filters:** Last 24h, IPv4, all scopes  
**Generated:** 2026-07-02 22:43

5 inbound rules 4 outbound rules 4 internet-facing flows

### Inbound rules — allow traffic TO this machine

| Proto | Port | Service  | Allowed sources                                                                             | First seen       | Last seen        | Count |
|-------|------|----------|---------------------------------------------------------------------------------------------|------------------|------------------|-------|
| Tcp   | 22   | sshd     | listening — no inbound observed                                                             | 2026-07-02 17:48 | 2026-07-02 22:43 | 0     |
| Udp   | 53   | svchost  | listening — no inbound observed                                                             | 2026-07-02 17:48 | 2026-07-02 22:43 | 0     |
| Tcp   | 443  | w3wp     | 52.96.14.10 [Internet]<br>10.2.3.10 [Private]<br>10.2.3.11 [Private]<br>10.2.3.50 [Private] | 2026-07-02 17:48 | 2026-07-02 22:43 | 240   |
| Tcp   | 1433 | sqlservr | 192.168.1.20 [Private]                                                                      | 2026-07-02 17:48 | 2026-07-02 22:43 | 60    |
| Tcp   | 3389 | svchost  | listening — no inbound observed                                                             | 2026-07-02 17:48 | 2026-07-02 22:43 | 0     |

### Outbound rules — allow traffic FROM this machine

| Proto | Destination   | Port | Process | Scope    | Resolved host | Last seen        | Count |
|-------|---------------|------|---------|----------|---------------|------------------|-------|
| Tcp   | 140.82.113.4  | 443  | chrome  | Internet |               | 2026-07-02 22:23 | 16    |
| Tcp   | 20.190.160.20 | 443  | chrome  | Internet |               | 2026-07-02 22:43 | 20    |
| Tcp   | 52.96.14.10   | 443  | chrome  | Internet |               | 2026-07-02 22:33 | 24    |
| Tcp   | 10.9.9.9      | 1433 | w3wp    | Private  |               | 2026-07-02 22:43 | 60    |

### Notes & caveats

- Rules reflect traffic OBSERVED during the window above. Rare or periodic flows may be missed — scan for a representative period before finalizing rules.
- Ephemeral client ports are intentionally excluded; inbound rules key on the service (local) port, outbound rules on the destination port.
- Outbound internet destinations are listed by IP. IPs can change — prefer FQDN-based egress rules where your platform supports them.
- "Internet" means a routable public address; "Private" covers RFC1918, CGNAT, loopback and link-local.
